Strategic Advisory Network

History & Introduction

You have put your blood, sweat and tears into imagining, implementing, nurturing and growing your business.

Maybe it was a way to combine your life passion with your skills and talent. Maybe it was a way to carry on a rich family tradition started by your parents—or theirs. Maybe it was your solution to a problem, and your way of making a positive impact on others' lives. No matter how you got here, your business is likely one of the most significant assets that your family owns, both financially and emotionally.

What's next for your business?

Perhaps a liquidity event? A transfer to the next generation? Growth capital for business expansion? Whatever your short- and long-term goals, you should consider strategic alternatives to help you protect what you've built and ensure financial security for you and your family.

Education & Collaboration

The SAN consultation process helps you crystallize your objectives and explore critical questions about your future, such as:

- What is your vision for the company over the next 3-5 years?
- Do you have an idea of what your company is worth? Has a third-party validated your company's value?
- What is your exit strategy? What is your time horizon?
- How much do you think you would need to take out of the business to help ensure financial security for you and your family?
- Are there estate and tax planning opportunities for you to take advantage of prior to an event?

Additionally, our consortium of investment banks work collaboratively with your Lyon Wealth Management Advisor to produce a holistic strategy, taking into account tax implications, future liquidity and your financial goals.
